

# ***BDP: Big Data Analytics Professionals for Business Intelligence***

**Overview:** This course is designed for the beginner Tableau user. It is for anyone who works with data – regardless of technical or analytical background. This course is designed to help you understand and use the important concepts and techniques in Tableau to move from simple to complex visualizations and learn how to combine them in interactive dashboards. The Visual Analytics course helps Tableau users design visualizations that viewers can easily understand and use. This course uses Tableau to develop and discuss visualizations.

**Who Should Attend:** This course is suitable for anyone who needs to use data analysis in their job role, including strategists, business analysts, business process managers, etc.
