

APM: Agile Project Management

Objective: Nowadays, demands from customers for immediate delivery of value are more intensive. Staying competitive in the market and keeping market share growing is very important for business. Agile is one of the solutions to deliver products continuously with customer value focus.

To ensure that participants really understand Agile and be able to apply Agile in their real-life project, the course is designed to hand on Agile practice with numerous workshops. The participants will learn and experience how Agile works.

Who Should Attend: People who work in product development or project base or stake in projects.

- Product Manager
- Project Manager
- Project Team Leader
- Project Coordinator
- Team Members

Course Benefit: Participants will learn:

- Agile mindset and practice
- How to run projects with Scrum framework

Recommended Pre-course: Project Management Practitioner Course (PRT)

Duration: 2 days (12 hours), 09:00 – 16:00
